## Controversy Sheet

You have topics, I have an opinion...and I'm not scared to share it..

When I'm on your show, a "lively discussion" is bound to follow.

### Issue: Campus Safety

David Koons says: "One armed student would have ended Virginia Tech before it started."

Liberal wimps say: "We should continue to disarm and disempower students. They shouldn't be expected to take care of themselves. That's the governments job - just pass more laws."

### Issue: Self Defense

David Koons says: "People should know how to protect and defend themselves and those they care about."

Liberals and Pacifists: "Only criminals should carry weapons so people can continue to be victims of crime."

### Issue: Bullying

David Koons says: "Kids should learn to protect and defend"

Liberal wimps say: "Kids should turn the other cheek while the government passes more laws and the parents discuss it at the next PTA meeting."  
(Meanwhile the child comes home bleeding and bruised every day)
